(Example: This is not moving the starting receiver to quarterback; it is moving a linemen or non-skilled position to a skilled position.) **[This rule is required once there is a 28 point differential. However, it is STRONGLY encouraged to not wait until the 28 points, and swap players once there is a 21 point differential, to allow more play time, avoid a running clock, and help reduce the chance of coach suspension].** Failure to take these steps will result in a 15-yard penalty and loss of possession for every play the team does not comply..
